Survivorship – Penile Cancer

Cancer Center Making Cancer History*

MDAnderson

THE UNIVERSITY OF TEXAS

Disclaimer: This algorithm has been developed for MD Anderson using a multidisciplinary approach considering circumstances particular to MD Anderson's specific patient population, services and structure, and clinical information. This is not intended to replace the independent medical or professional judgment of physicians or other health care providers in the context of individual clinical circumstances to determine a patient's care.

NED = no evidence of disease

¹See Physical Activity, Nutrition, and Tobacco Cessation Treatment algorithms; ongoing reassessment of lifestyle risks should be a part of routine clinical practice

² Includes colorectal, liver, lung, pancreatic, prostate, and skin cancer screening

³Consider use of Vanderbilt's ABCDE's approach to cardiovascular health

⁴Based on Centers for Disease Control and Prevention (CDC) guidelines

DEVELOPMENT CREDITS

This survivorship algorithm is based on majority expert opinion of the Genitourinary Survivorship workgroup at The University of Texas MD Anderson Cancer Center. It was developed using a multidisciplinary approach that included input from the following:

Core Development Team Leads

Curtis A. Pettaway, MD (Urology)

Workgroup Members

Olga N. Fleckenstein, BS⁺ Katherine Gilmore, MPH (Cancer Survivorship) Karen Hoffman, MD (Radiation Oncology Department) Thoa Kazantsev, BSN, RN, OCN[◆] Thomas G. Smith, MD (Urology) Michael Roth, MD (Pediatrics) Raghu Vikram, MD (Abdominal Imaging Department) Jianbo Wang, MD, PhD (Genitourinary Medical Oncology)

Clinical Effectiveness Development Team
